

Environmental Meeting Public Notice

Iowa Army Ammunition Plant will host a public meeting to discuss proposed remedies for Trench 6, Trench 7, and the Cap Extension Area (CEA) of the Inert Disposal Area (IDA), being addressed under its Environmental Restoration Program and the Comprehensive Environmental Restoration, Compensation and Liability Act (CERCLA). The preferred alternative being proposed for the IDA includes transfer of treated soil from Trench 7 to either Trench 6 or the CEA, removing Trench 7 (liner, leak detection system, leachate collection system, underlying contaminated soil, if present) and disposing in Trench 6, providing a cap for the CEA and Trench 6, groundwater monitoring, cap inspections and maintenance, and land use controls to restrict site access and future land uses. The community is invited to provide comments and attend a meeting to discuss the Proposed Plan for this site.

When: June 6, 2007

Where: Winegard Board Room
RiverPark Place
610 North 4th St.
Burlington, Iowa

Time: 7:00 p.m.

The Proposed Plan and supporting documents for the IDA remedy can be viewed at the Burlington Public Library, the Danville City Hall, or the Lee County Health Department. If you would like to provide comments or receive more information about Iowa AAP and its environmental programs, please call Mr. Rodger Allison at (319) 753-7130.
